#### THE RELIGIOUS AND LITE RARY BEPOSITORY.

To be edited by a society of Laymen members of the Protestant Episcopal Church,

The leading views of the Editors are stat ed in the following note, by one of the persons, who will og actively publication solves election of the matter for publication for the Religious Magazines which have

the Religious magazines which the church, are, some of them, very useful as far as they go. My objection to them is, that they do not attempt to g ve us information of which the laity, and indeed clergy, stand in much need, and which is with stand in much need, and which is with great difficulty to be obtained. In this country the laity have a considerable participation in the affairs of the church, and sught to possess an intimate knowledge of eught to possess an intimate knowledge of its history, constitution and laws. As church wardens, and trustees or vestrymen, as well as delegates to the convention, they have important and very solemn duties to perform, and with a knowledge of these duties, it ought to be the business of these magazines to furnish them. The subjects usually discussed in them have already have neverlained and enforced by pious and been explained and enforced by pious and learned divines, with as much ability as could be expected from more modern wri ters, and a knowledge of what we are site believe and do in order to be saved," may be communicated to our readers as well h selections, as by any original matter which we might be able to offer to them. From the writings of approved divines, not al ways to be met with, even in possession of the clergy, we shall most frequently collect what it is deemed necessary to give on christian doctrine and duty. The magazine will aim to be useful, and desires no other

I am induced to hope that, besides furrishing the laity with useful information in-regard to the duties which are imposed up-on them, some hints, worthy of their atten-tion, may occasionally be given to the eler-gy. While they act up to their ordination yows: endeavour to frame and fashing their vows; endeavour to frame and fashion thei lives according to the doctrine of Christ, to make themselves wholesome examples of the nock of Christ, and reverently obey the nick of Christ, and reverently obey their Bit ops, following with a glad mind and will, the godly admonitious, they deserve, and there is in the laity of the church of Maryland generally, every disposition to honour and support them. If, however, at any time, any of them forget to pay due regard to their own solution engagements, and instead of loving to getter in unity," a design should be manifested to introduce disorder and mistake into the church, to onesse its legitimate without. church, to oppose its legitimate outhority, or to assume powers which do not belong to them, then it is not only the right, but it becomes the imperative duty of the sity, to animadvert upon such conduct with in-

sparing severity.

Approving entirely of the forms presented, and of the doctrines agreed to by our Church, it will be no part of the business of the Magazine to recommend or even to connive at, any new inventions, whether in tenets, or discipline or worship.
